## UCS1601 - Internet Programming

---

### Assignment 8: Node.js Assignment

#### Objective:

Write a Node.js program which fires an event “help”. On firing the event “help”, the listener “helper” is called which displays a message “Please help me” to the console.

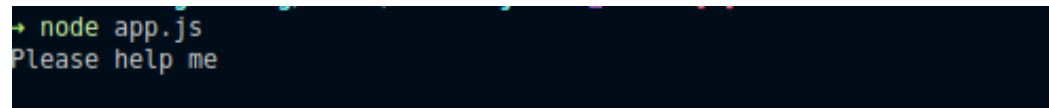

#### Code:

#### Javascript:

```
1 var events = require('events');  
2 var eventEmitter = new events.EventEmitter();  
3  
4 var helper = function listenFunction(){
```

```
5     console.log("Please help me");  
6 }  
7  
8 emitter.on("help", helper);  
9  
10 emitter.emit("help");
```

## Output:

```
→ node app.js  
Please help me
```
