Ex 01: Website for International Conference using HTML5 Tags

Objective:

Develop a Website for an International Conference using HTML5 elements.

Code:

Home Page:

```
1 <!DOCTYPE html>
2 <html>
3   <head>
4     <meta charset="utf-8">
5     <title>International Conference</title>
```

```

6   </head>
7   <body style="overflow-x: hidden; background-color: rgba(76,
8     109, 38, 0.733);">
9     
13      <span style="display: inline; ">
14        
17          <ul style="display:flex;list-style-type:none;flex-
18            direction:row; padding-left: 30rem; padding-top: 30px;">
19
20            <!---->
21            <li style="padding:10px;">
22              <a href="index.html" alt="home page" target="_blank
23              " title = "Home" style="text-decoration:none; color:black;
24              display:block;">Home</a>
25            </li>
26            <!---->
27            <li style="padding:10px;">

72      <p>
73          The Department of Computer Science & Engineering
74  is proud to conduct and organize the <b><em>IFIP Event - 4

```

```

th International Conference on Computational Intelligence
in Data Science</em></b> on March 18-20, 2021.
53   </p>
54   <p>
55     The conference provides an opportunity for the
researchers, engineers, developers, and practitioners from
academia and industry to discuss and address the
experimental, theoretical work and methods in solving
problems related to data science. Also to share their
experience and exchange their ideas in the field of Data
Science and Computational Intelligence. This conference
will be useful for professionals working in data science,
machine learning, artificial intelligence and predictive
modeling. This conference aimed to have expert talks,
young researchers presentations, short papers and posters.
Accepted papers that are presented at the conference will
be included in the conference proceedings and published in
the <b>Springer IFIP AICT</b> (Advances in Information
and Communication Technology) series.
56   </p>
57   <p>
58     The conference also hosts two pre-conference
workshops on Deep Learning and Blockchain Technology. The
conference provides an opportunity for the researchers,
engineers, developers and practitioners from academia and
industry to share novel research aspects in the fields of
Data Science and Computational Intelligence.

Output:

Home Page:

The screenshot shows the homepage of the SSN College of Engineering website. At the top left is the college's logo, "SSN". To its right is a navigation menu with links: Home, Committee, Call for papers, Important dates, Workshops, Registration, and Contact. Below the menu is a banner featuring a photograph of a fountain and purple flowers, with text overlay: "SSN College of Engineering", "Department of Computer Science and Engineering", and "International Conference on Computational Intelligence in Data Science". A large white rectangular box covers the lower half of the page. Inside this box, the word "ABOUT" is centered at the top. Below it, a paragraph describes the conference, mentioning the IFIP Event - 4th International Conference on Computational Intelligence in Data Science on March 18-20, 2021. It highlights the opportunity for researchers, engineers, developers, and practitioners from academia and industry to discuss experimental, theoretical work, and methods in solving problems related to data science. It also mentions workshops on Deep Learning and Blockchain Technology. At the bottom of the page is a copyright notice: "Copyright © 2021".

Committee Page:

Call For Papers Page:

The screenshot shows the SSN College of Engineering website. At the top, there is a green header bar with the SSN logo on the left and navigation links: Home, Committee, Call for papers, Important dates, Workshops, Registration, and Contact. Below the header is a banner for the "International Conference on Computational Intelligence in Data Science". The banner features the conference title and subtitle. The main content area is titled "CALL FOR PAPERS". It includes a brief description of the conference's purpose, mentioning research in Computational Intelligence, Data Science, Image / Natural Language Processing and Blockchain. It also lists relevant topics for submission. The topics are categorized into two main areas: 1. Machine Learning (ML), Deep Learning (DL), Internet of Things (IoT) and 2. Blockchain. Under ML/DL/IoT, the topics include Pattern recognition, Evolutionary computation, and Information retrieval. Under Blockchain, the topics include Blockchain based AI and cloud computing, Blockchain based Machine and Deep Learning of Knowledge, and Blockchain-based Software defined networks. At the bottom of the page, there is a copyright notice: "Copyright © 2021".

Important Dates Page:

Workshops Page:

Registration Page:

The image shows a registration page for the International Conference on Computational Intelligence in Data Science at SSN College of Engineering. The page has a green header with the SSN logo and navigation links for Home, Committee, Call for papers, Important dates, Workshops, Registration, and Contact. The main content area features a banner with the conference title and a background image of a landscaped garden. The form itself is titled 'PRE-CONFERENCE WORKSHOP REGISTRATION' and includes fields for Full name, Mobile number, Email ID, Choose your category, and Choose track, each with a dropdown menu. A 'Submit' button is at the bottom left, and 'Copyright © 2021' is at the bottom right.

Learning Outcomes:

- Learnt to build a website with HTML5 only.
- Learnt to use inline styling by means of **style** attribute.
- Learnt the different types of tags in HTML5 and their varied uses.
